

MATHS

In maths we will be continuing to look at numbers from 0 to 100 and what each digit represents within these numbers. We will be learning to tell the time to o'clock and half past and will be sequencing events in chronological order. We will also be learning to recognise and know the value of different denominations of coins and notes

There are some good interactive maths games on www.ictgames.com/. If your child is keen to learn at home then we recommend you take a look.

SCIENCE

In science we will be looking at materials. We will be learning about the different materials in our environment as well as investigating their properties.

Outdoor PE - In outdoor P.E we are practising throwing and catching.

Indoor PE - In indoor P.E we are practising our skills of bouncing, jumping and landing. Please make sure that your child has a warm tracksuit to wear for outdoor PE, as it is chilly throughout the winter months! Girls should not wear tights during PE so please send in a pair of socks for your child to keep in their PE bag.

ENGLISH

We will be looking at time capsules and will be thinking of all of the things that could go into one. We will write letters, lists and will create videos to put into our own time capsule.

We will continue to focus on letter formation and using capital letters and full stops in our writing.

We will be developing our touch typing skills.
