

One half term left!
ENGLISH

In English we will be focusing on:

- Applying all of the skills we have been practising this year!

Children are being encouraged to use adventurous vocabulary and punctuation to make their writing interesting!

We will be writing fiction stories about aliens, letters and play scripts.

SCIENCE

In science we will learning about habitats for plants and animals. This includes our school trips learning objectives as we will be looking at adaptations that animals and plants make in order to live in various places.

History

We will be learning about Neil Armstrong and comparing his space journey to Tim Peake. We will also learn about space travel through the ages.

INDOOR P.E.

We will perform simple rhythmic patterns and repeat them in different formations. We will create movements in response to a story or repeated rhythm.

OUTDOOR P.E.

We will be developing our athletic skills.

MATHS

We are currently focusing on problem solving and applying our arithmetic knowledge to help us in real life scenarios.

Please practise telling the time, measuring and spotting shapes within real life contexts too. The children love to share their mathematical findings from home with their classes.

If you wish to know more information about these techniques, please come and speak to your class teacher who will happily talk you through the methods. Children will then move onto problem solving such as word problems.

Please remember to name all items of school uniform and water bottles.

As we are lucky enough that the weather is improving, it is the time of year that more children take off and lose jumpers.

PSHCE

We will be learning about growing up and moving on.

YEAR 2 - SUMMER TERM
To the Moon and Back!

COMPUTING

We will be consolidating our typing skills by making newspapers and revisiting our coding work.

MUSIC

In music we will be learning about cotemporary music based on friendship.

DT

We are making alien puppets!
This is a sewing project that the children are very excited about. If you have a DBS check through the school and wish to help us with this fun project, please speak to your class teacher - More hands make light work!

RE

We will be learning about precious water.
